## IT'S THAT TIME OF YEAR WHEN WINTER WEATHER CAUSES A SLIP AND FALL.

**READ ABOUT A K&K SLIP AND FALL CASE BELOW**

"A client consulted with our firm after suffering an injury caused by a slip and fall on ice and snow in the parking lot

of her employer. By the time she sought our assistance she had already tried handling her case on her own for months until she was at a point where her injury was not getting any better. After delays in treatment, she finally was scheduled for surgery to repair a tear in her hip. Our firm worked with her to establish liability with her employer which ensured her eligibility to receive benefits. We remained up-to-date on her case, facilitating requests for reasonable and necessary medical treatment. We also assisted her with obtaining an award for disfigurement on her scarring from the surgery and a lump sum to settle and close out her workers' compensation claim.

Not every slip and fall case involving an employer is compensable and requires an attorney to review whether benefits can be sought. Reach out to our experienced attorneys at Kirshenbaum & Kirshenbaum so we can evaluate and help you with your case today!" **Attorney Arianna Stubbs**
